What is Wealth?

• Income vs Wealth

- Income is the flow of funds into a household each year.
- **Wealth is a household's NET asset holdings.**
 - o The value of all assets minus the value of all debts.

• Assets include:

- Owned homes, cars, stocks, businesses, savings and checking accounts, pensions, life insurance...

• Debts include:

- Home mortgages, car loans, credit cards, and any other significant financial obligations (excl regular bills)...

Why Wealth is Important

NATIONAL ECONOMIC
EDUCATION DELEGATION

19

19

Widespread Household Wealth Pays Dividends

- **To individuals in the household**
 - Choices/Agency
 - Wealth is iterative
- **And to broader society**
 - Human capital development
 - Entrepreneurship and innovation

NATIONAL ECONOMIC
EDUCATION DELEGATION

20

20

Household Level Benefits

- **Choices/Life Agency**

- Finance higher education
- Living in good neighborhoods
- Saving for retirement
- Capital to start a business
- w/stand financial hardship
- Better legal counsel
- Exert political influence
- Finance costly medical procedure
- Bequests

- **Wealth is iterative**

- Wealth begets more wealth.
 - o Access to higher return investments.
- Wealth transfers across generations.
 - o Wealth is sticky.

NATIONAL ECONOMIC
EDUCATION DELEGATION

21

21

Parental Wealth is Important

- **Important pre-estate transfer effects on kids:**

- Influences human capital accumulation.
- Influences the returns to education.
- Adult incomes of offspring.

- **There are clearly enormous differences in wealth held by parents of Black and White children.**

- **And it's clear that nurture plays a big role.**

Tangible Benefits for the Broader Economy

- More human capital development
- Increased entrepreneurship
- Healthier labor force
- Less social unrest
- Less reliance on social programs
- Smaller stock of student loans

Events/Policies with Direct Wealth Implications

- **Slave trade**
 - The first deprivation.
- **Slavery**
- **40 acres (and a mule)**
 - The second deprivation.
 - Discriminatory distribution of land.
- **Freedman's Savings Bank**
 - Lax oversight and dissolution.
- **Jim Crow Laws & Economic Policy**
 - Convict leasing, debt peonage, chain-gang, sharecropping, and lynching.
- **Homestead Act**
 - Discriminatory distribution of land.
- **Land theft and destruction**
 - E.g., Black Wall Street – Tulsa, 1921.
- **GI Bill**
 - Discriminatory access – Levittown
- **Federal Housing Authority**
 - Redlining
- **And many more.**

NATIONAL ECONOMIC
EDUCATION DELEGATION

26

26

Results for Black Families

- **Much lower accumulation of wealth than among White families.**
- **Implications:**
 - Less financial contribution from parents to children.
 - More difficult access to higher education.
 - Less access to capital for business formation.
 - More likely to live in disadvantaged neighborhoods.
 - Fewer role models.
 - Less access to quality education.
 - *Disparities in the capacity – availability of resources - to build wealth.*

Home Ownership

32

Home Ownership: 2016

Housing Status	Net Worth Median	Net Worth Mean
Renters	\$5,200	\$91,100
Owner	\$231,400	\$1,034,200

33

Wealth Equality Through Home Ownership?

- **Well-documented evidence of historical and ongoing housing and lending discrimination.**
 - Appraisals, buyers, lenders, local laws, covenants...
- **What about home prices in minority neighborhoods? Even if they buy, they won't get the appreciation of White neighborhoods.**
 - Home values are 50% lower in majority Black neighborhoods.
 - o 23% lower after adjusting for quality and amenities.

34

What Determines Differences in Home Ownership?

- **Wealth of parents**
- **Ability to borrow – lending discrimination**
 - At all
 - On equivalent terms to white borrowers
- **Local ordinances – housing discrimination**
- **Lower appreciation rates of homes in majority Black communities.**
 - This makes it a less attractive investment.

NATIONAL ECONOMIC
EDUCATION DELEGATION

35

35

Increased Savings

- **Historical evidence generated by economists ranging from Milton Friedman (1957) to Marjorie Galenson (1972) to Marcus Alexis (1971) to Gittelman and Wolff (2004).....**
 - All find that after accounting for household income, Blacks have a slightly higher savings rate than Whites.
- **Risk and reward are higher for White investors (?).**
 - Controlling for income, this is not clear.
 - Access to and tolerance for higher-risk investments are clearly correlated with income.

NATIONAL ECONOMIC
EDUCATION DELEGATION

36

36

Financial Literacy

- **Financial literacy helps explain individual wealth differences within racial groups, but none of the wealth differences between racial groups.**
 - The insufficient financial literacy argument is often leveled specifically at Black households.
 - o The argument holds equally with regard to all households of comparable incomes.
- **Controlling for household income, there is no difference in rates of asset appreciation between Black and White households.**

39

39

Explaining Differences in Entrepreneurship

- **Disparities in access to capital:**
 - Wealth disparities
 - Specifically differences in home equity.
 - Differences in wealth levels of friends and family.
 - Less likely to rely on banks and more likely to rely on credit cards.
 - Loans have higher int rates and more likely to be declined.
 - Less access to venture funds.
- **Generally lower levels of education.**
- **Previous business ownership by family.**
- **Different stocks of relevant social capital.**

NATIONAL ECONOMIC
EDUCATION DELEGATION

40

40

Soft Skills and Personal Responsibility

• Employability

- Show up on time
- Eye contact with customers
- Dress well
- Collaborative skills

• Reality

- Black workers are crowded into service sector jobs.
- Well represented in service, sales and office, and production, transportation, and material moving
- Relatively less well represented in construction, extraction, and maintenance.

Reform Criminal Justice System

- Legal restrictions on the rights of people who have had contact with the criminal justice system, particularly contact resulting in conviction.
- **Usually placed in civil and regulatory codes, collateral consequences may limit a person's:**
 - ability to vote
 - live in public housing
 - qualify for an occupational license
 - serve in the military
 - receive public benefits (Food Stamps, housing vouchers)
 - sit on a jury
 - borrow money for college
 - And many more

NATIONAL ECONOMIC
EDUCATION DELEGATION

53

53

Specific Policy Options

- **Global solutions that affect all source areas**
 - Child Trust Accounts - "Baby Bonds"
 - Guaranteed minimum income
- **Addressing racial disparities directly**
 - Reparations
 - o Aggressive affirmative action.
 - o A new Homestead Act.
 - o Heavily investing in Black communities.
 - o Differential tax treatment.
 - Labor and other laws that address discrimination
 - o Enforce more aggressively and make adjustments where necessary to increase efficacy.
 - Fundamental reorientation of asset building agenda.

55

55

Other Concrete Policy Options

- Limit the mortgage interest tax deduction and use the revenues to provide a credit for first-time homebuyers.
- Establish automatic savings and retirement plans.
- Reduce reliance on student loans while supporting success in postsecondary education.
- Offer universal children's savings accounts.
- Reform safety net program asset tests, which can act as barriers to saving among low-income families.
- Provide subsidies to promote emergency savings, such as those linked to tax time.

Summary

- **The Black White wealth gap is enormous (2022)**
 - Mean: White wealth is 6.5x Black wealth.
 - Median: White wealth is 6.3x Black wealth.
- **There are many explanations in the common narrative.**
 - Many do not stand up to scrutiny.
- **Government policies have contributed enormously this gap.**
 - Racial dehumanizing permitted these policies.
- **Wealth endowments (parental wealth) are enormously important for determining own wealth in adulthood.**
 - Policies that address this relationship are most likely to be effective.
- **Some form of policy intervention is likely necessary if the gap is to be closed.**
